

IILM UNIVERSITY, GREATER NOIDA, U.P.

School of Computer Science and Engineering

INTERNSHIP REPORT

Digital Content Editing, Quality Assurance, and Fact-Checking

Submitted in partial fulfilment of the requirement for the degree of B.Tech CSE

STUDENT NAME

Ayush Kumar Rai

ENROLLMENT NUMBER

25scs1003002463

PROGRAM & SEMESTER

B.Tech CSE — 3rd Semester

ORGANISATION

GURUsys Learning

BATCH

2026 - 27

ROLL NUMBER

25scs1003002463

1 Candidate's Declaration

“

I, Ayush Kumar Rai, do hereby declare that the internship report titled **“Digital Content Editing, Quality Assurance, and Fact-Checking”** has been completed by me to fulfil the requirement for the award of the degree of Bachelor of Technology in CSE. All references have been quoted, and I affirm this report is my own original work, not submitted elsewhere for any degree or diploma.”

Declaration Details

STUDENT

Ayush Kumar Rai

ROLL NO.

25scs1003002463

DATE

August 2026

MS**Mr. Mukesh Kr. Sinha***Director, GURUsys Learning*

For invaluable mentorship, industry perspective, and continuous encouragement throughout the internship.

FC**Faculty & Coordinators***School of CSE, IILM University*

For granting the platform for this internship and for constant academic guidance.

PF**Parents & Friends***Personal Support*

For their blessings, patience, and unwavering moral support.

3

Internship Completion Certificate

Issued by GURUsys Learning upon successful completion of the editorial internship.

ORGANISATION

GURUsys Learning ("Read to Lead")

DESIGNATION

Editor / Editorial Intern

TENURE

15 May 2026 – 30 Jun 2026

CERTIFICATE NO.

GL/INT/2026/012

DATE OF ISSUE

8 August 2026

SIGNATORY

Mukesh Kr. Sinha, Director

CHAPTER 4

Project Description

Introduction · Organisation Profile · Problem Statement · Objectives · Scope · Tools · Methodology · Outcomes

Introduction & Organisation Profile

i

Introduction

In the contemporary digital publishing and educational content industry, maintaining factual precision, structural clarity, and typographical excellence is essential for impactful knowledge transfer. This internship at GURUsys Learning focused on auditing, editing, fact-checking, and standardizing educational book drafts across multiple subjects before pre-press typesetting and digital release.

GL

Organisation Profile

GURUsys Learning — “Read to Lead”

A forward-thinking educational publisher and content development organisation. The firm designs and publishes curriculum textbooks, practice modules, supplementary guides, and digital e-learning assets for primary and secondary learners — with a focus on pedagogical rigor, accessible narrative structure, and accurate content delivery.

Problem Statement

Raw academic manuscripts prepared by diverse authors invariably contain discrepancies — from mechanical typos and awkward syntax to unverified scientific figures and outdated citations. Releasing unvetted educational manuscripts creates three serious challenges:

Pedagogical Risks

Factual inaccuracies mislead students and undermine institutional trust.

Production Inefficiency

Late-stage corrections post-typesetting severely inflate publication turnaround times and costs.

Stylistic Inconsistency

Lack of uniform typographical enforcement leads to fragmented reading experiences across multi-author volumes.

Project Objectives

1

Establish and execute systematic multi-pass proofreading routines to eliminate 100% of grammatical and orthographic errors.

2

Perform strict data validation and primary source fact-checking on formulas, dates, diagrams, and historical references.

3

Standardize text formatting, chapter subdivisions, tables, and indices per the in-house GURUsys publishing style manual.

4

Deploy collaborative version-tracking and markup annotations to accelerate the pre-press approval lifecycle.

Scope, Technologies & Tools Used

Scope of the Project

Comprehensive quality auditing across educational book chapters and manuscript packages — line editing, macro-structural organisation, citation cross-referencing, metadata consistency checks, and final sign-off reports for the senior production desk.

Technologies & Tools Used

Word Processing & Macro Automation

Microsoft Word (Advanced Track Changes, Custom Dictionaries, Stylesheets), Google Docs

Digital Proofreading & Markup

Adobe Acrobat Pro — Digital Proofing Tools, Preflight Review, Text Highlight Annotation

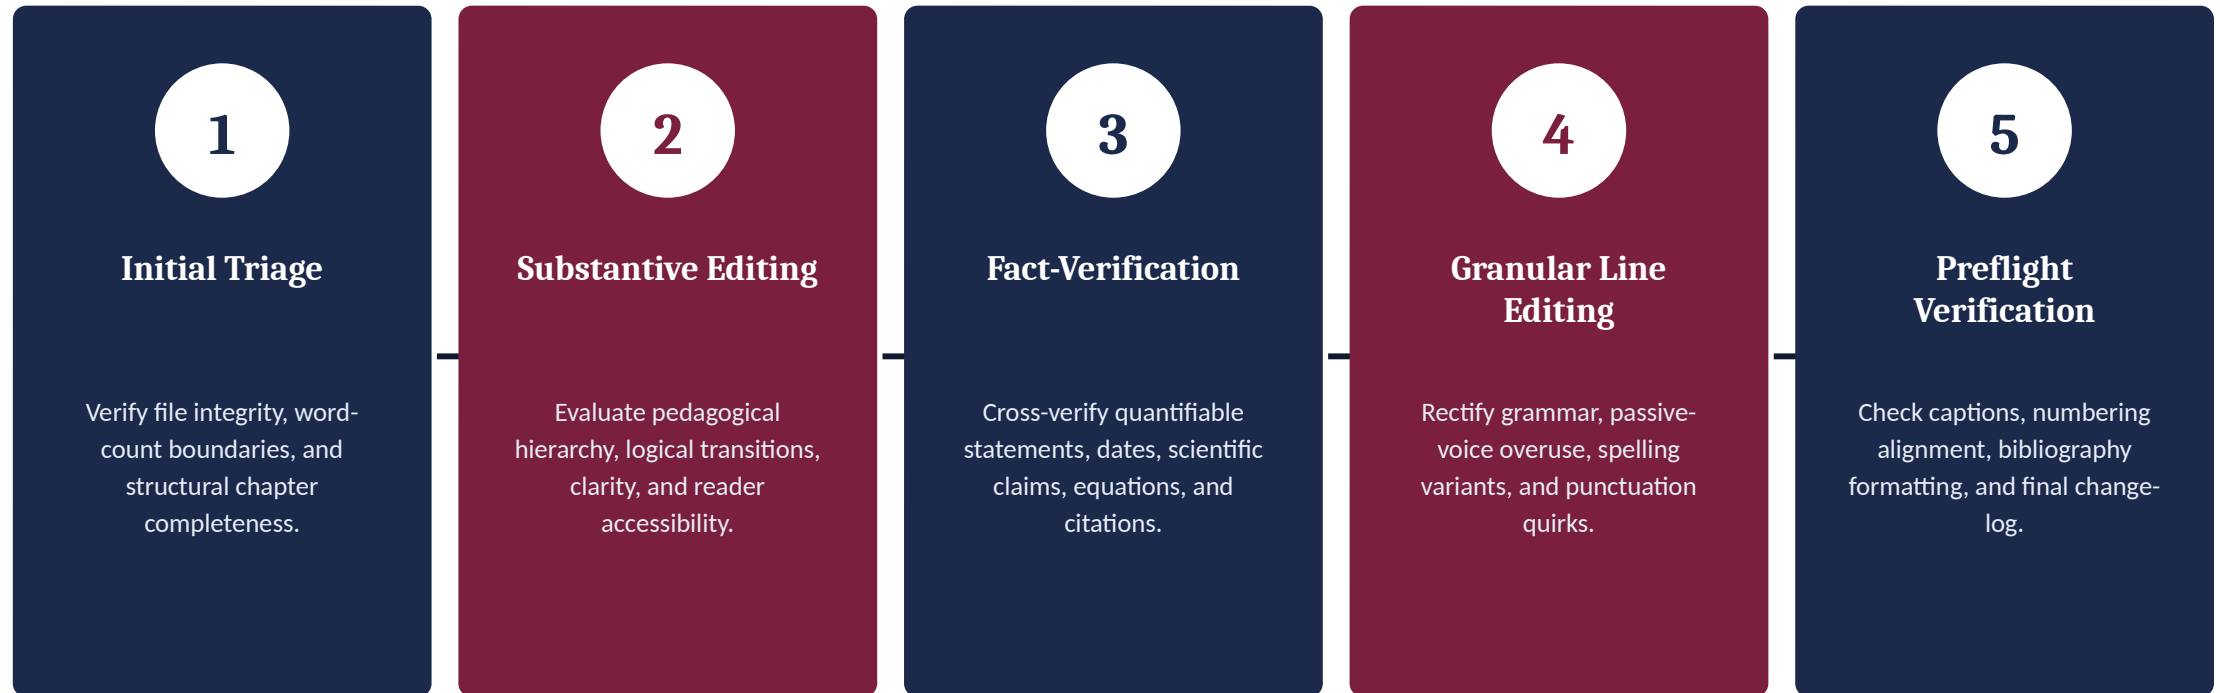

Academic Verification & Fact Engines

Google Scholar, CrossRef, Official Academic Repositories, Britannica Academic

Version Control & Editorial Management

Structured cloud repositories with rigorous file naming schemas (SemVer draft logging)

Methodology — Multi-Pass Review Protocol

Expected Outcomes

Zero Discrepancies

Delivery of high-precision, flawless publication masters with zero factual discrepancies.

Faster Handoff

Demonstrable acceleration of the typesetter handoff stage with reduced pre-press cycle times.

Uniform Style

Uniform typographical hierarchy and presentation across all published book chapters.

Reusable Matrix

Establishment of a reusable editorial fact-checking matrix for subsequent publishing cycles.
